

Childhood cancer: tumour groups by age group, 1987–2016

Tumour groups (ICCC-3)

- I. Leukaemias
- II. Lymphomas
- III. Tumours of the central nervous system¹
- IV. Peripheral nervous cell tumours
- V. Retinoblastomas
- VI.-VII. Renal tumours and hepatic tumours
- VIII. Bone tumours
- IX. Soft tissue sarcomas
- X. Germ cell tumours
- XI.-XII. Other malignant epithelial neoplasms and other unspecified malignant tumours

The surfaces are proportional to the number of new cases.

¹ All tumours of the central nervous system are included (regardless of the type of behaviour).
