Construction expenditure in Switzerland in 2020: provisional results

Slight decline in investment in construction in 2020

Construction expenditure remained at the previous year's level in 2020, with investment in building engineering projects falling by 1.1% compared with the previous year and that in civil engineering projects rising by 3.2%. As a result, total investment in construction showed a decline of 0.3%. These are provisional findings from the Construction Statistics from the Federal Statistical Office (FSO).
