

Subjective assessment of job security

Percentage of employed people aged 16 or over who evaluate the risk of becoming unemployed in the next 12 months as very low (score of 0 or 1 on a scale of 0 to 10)

¹ according to the estimation of the total household income at the moment of the interview, given by the respondent of the household questionnaire for the total household

² 2020: the division of the sample into two does not allow for estimations by economic activity
