New pensions statistics 2022

## New pensions statistics: 2022 results

In 2022, lump-sum payments from occupational pension plans (2<sup>nd</sup> pillar) that were received after the legal retirement age were the highest for both men and women. Among recipients of new benefits in 2022, 44% received a pension, 37% a lump-sum and 19% a combination of a pension and lump-sum. These are some of the findings from the new pensions of the Federal Statistical Office (FSO) with a focus on occupational pensions.
