Hospital Statistics 2023

Staff trained abroad essential in Swiss hospitals

In 2023, Swiss hospitals recorded 1.5 million inpatient stays and 23.9 million outpatient consultations. This was possible thanks to staff working in 185 800 full-time equivalent positions. Almost one in two qualified doctors and a third of qualified nursing staff working in hospitals were trained abroad. These are some of the results from the hospital data published today by the Federal Statistical Office (FSO).
