Pension Fund Statistics 2023: final results and key figures

Occupational pension plans: positive net return, value fluctuation reserves below 2021 level

In 2023, pension funds generated a positive net return on investments of CHF 54 billion, after a loss of CHF 105 billion in the previous year. The value fluctuation reserves increased to CHF 94 billion (CHF 65 billion in the previous year). However, this was still considerably less than the CHF 145 billion seen in 2021. This is according to the final results of the 2023 Pension Fund Statistics from the Federal Statistical Office (FSO).
