07 Agriculture and forestry Farm structure census 2024

Organic farming loses momentum in 2024

In 2024, there were 47 075 farms in Switzerland, 1.3% fewer than the previous year. Organic farming also lost its momentum, with the number of organic farms ceasing to grow for the first time since 2010. Trends in livestock numbers varied. The number of dairy cows and pigs fell, while poultry numbers remained stable. These results are taken from the Farm Structure Survey conducted by the Federal Statistical Office (FSO).
