Introduction

Would you like to get a canton's most important statistical facts at a glance? Would you like to compare your canton with other cantons or with Switzerland as a whole? As part of its comprehensive range of regional statistical data, every year the Federal Statistical Office makes available on its Swiss Statistics website new cantonal portraits with roughly 60 up-to-date key figures.

The key figures from the interactive online application are compiled in table format in the present publication for a better overview and for everyday use as a work of reference. Data come from the regional database platform Stat@tlas and in each case show the latest available figures on the reference day indicated (see box below).

The publication currently appears annually in German, French, Italian and English and is automatically generated from the database. For this reason its layout does not correspond exactly to the usual specifications for FSO publications.

Cantonal portraits 2013

Data as of:	19.7.2013
Number of portraits:	27
Topics:	12
Variables:	59
Regionalisation:	Cantons (1.1.1997)
Data source:	FSO
Database:	Stat@tlas

Online application cantonal portraits

The online application, which also includes a comparator as well as a print and search function for individual regional units, can be found at:

www.statistics.admin.ch → Regional Data → Cantons

Data downloads and explanations

A data download is also available on the Swiss Statistics website (Format: Excel) as well as metadata with explanations for certain key figures:

www.statistics.admin.ch → Regional Data → Cantons → Data and explanations

Further up-to-date information available online:

Portraits of Swiss communes

www.statistics.admin.ch → Regional Data → Communes

Portraits of European countries

www.statistics.admin.ch → International → Country portraits

The interactive *Statistical Atlas of Switzerland* also visualises the same key figures and numerous other official statistics topics in the form of thematic maps and provides time series for most topics. Access to atlas: **www.statatlas-switzerland.admin.ch**

Legend to symbols

- no results available as data not collected or statistically unreliable
- X no results available due to data protection
