MONET 2030 - Sustainable development monitoring

Description

The MONET 2030 indicator system gives an overview of sustainable development in Switzerland, providing a picture of the progress made towards the 17 sustainable development goals (SDG) of the United Nations 2030 Agenda as well in relation to certain topics specific to Switzerland. Comprising over 100 indicators, the system is structured around the 17 SDGs.

Available since:
2003

Methodology

Indicator system

Reference period:
Depending on data availability

Periodicity:
Yearly update

Degree of regionalisation:
Switzerland

Statistical quality of data:
Indicator data are taken from official statistics.
The indicators meet the selection criteria.

Policy on revisions

Revisions of the data sources of the indicators are considered when updating the indicators.

The indicator system itself is revised as needed (for example in the case of changes in the goals' system or of new methodological approaches). For further information about previous revisions see: [Information on the system](#)

Legal bases

Articles 2 and 73 of the Swiss Federal Constitution

Sustainable Development Strategy of the Federal Council (latest version)

Organisation

Federal Statistical Office (FSO)
Environment, Sustainable Development, Territory
