City Statistics

www.citystatistics.ch

City Statistics is a Eurostat project in which Switzerland is participating through its 10 largest cities. It provides information and comparisons on various aspects of living conditions in almost 900 European cities and their functional urban areas. Over 400 variables are available for the core cities and agglomerations of the 10 Swiss cities.

The Federal Statistical Office (FSO) leads the City Statistics project for Switzerland and implements it in collaboration with:

Federal Office for Spatial Development (ARE) / Federal Housing Office (FHO) / State Secretariat for Economic Affairs (SECO)
