Mobility and Transport 2013

Mobility in Switzerland – Facts and figures in an updated statistical overview

Neuchâtel, 20.08.2013 (FSO) – **How many kilometres do Swiss residents travel per day? Is the goods transport on Swiss roads "home-made" or mainly the result of the exchange of goods within the EU? How much does transport cost and who pays what? Which road users are most often involved in accidents? Answers to these and many other questions can be found in the newly published overview "Mobility and Transport 2013" from the Federal Statistical Office (FSO).**
