Medico-social care in institutions and at home in 2013

Home care and nursing homes: the private sector expands its position

Neuchâtel, 18.11.2014 (FSO) – **Nursing homes, assistance and home care services continued to develop their offer in 2013. While the growth of nursing homes was lower than the previous year, the increase of personnel in assistance and home care services has been steadier since 2010 with a marked rise for private, profit-making companies. These are some of the latest findings from the Statistics on Home Care Services and the Statistics on Medico-Social Institutions of the Federal Statistical Office (FSO).**
