Swiss national accounts 1995-2013

Upward adjustment of the level of the gross domestic product following revision of the national accounts

Neuchâtel, 30.09.2014 (FSO) – **The annual results of the national accounts published by the Federal Statistical Office (FSO) have been revised and new data series are now available for the period 1995 to 2013. This revision, which has been carried out in collaboration with SECO's quarterly estimates, is mainly intended to implement the new reference manual for the national accounts. It has been carried out in coordination with European countries and results in a GDP level increase of between 5% and 6% over the considered period. The GDP in 2013 at current prices now amounts to CHF 635 billion.**
